At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 5th day of April A. D. 1946.

This proceeding came on for hearing before the Federal Trade Commission on the complaint, answer of respondent, testimony and other evidence, report of the trial examiner, briefs in support of the complaint and in opposition thereto, and oral arguments of counsel. The Commission, after duly considering the matter and finding that the proceeding was in the public interest, made, entered and served upon respondent and duly recorded and filed in the office of the Commission on September 7, 1943, its findings as to the facts, its conclusion drawn therefrom and its order to cease and desist.

Subsequently thereto, and after the statutory time allowed for the filing of

a petition for review of said proceeding had expired, the Commission, on the 27th day of March, 1946, duly notified respondent to appear and show cause why this proceeding should not be reopened and the findings of facts and order to cease and desist be altered, modified and set aside, in part, in the manner and terms therein set forth.

Respondent, on the 1st day of April 1946, having filed a waiver of hearing and its consent to the entry of an order modifying the findings of facts and the order to cease and desist in the manner set forth in the order to show cause, and the Commission having duly considered the matter and being now fully advised in the premises, and being of the opinion that the public interest requires that said findings of facts and order to cease and desist be altered, modified and set aside, in part.

*It is now ordered,* That this proceeding be, and the same hereby is, reopened.

*It is further ordered,* That the second sentence of the second paragraph of paragraph 7 of the said findings of fact be, and the same hereby is, set aside, and the following finding substituted in lieu thereof:

The Commission is of the opinion, however, and finds that these legends as heretofore used are too inconspicuous and inadequate to adequately explain or qualify the word "Canadian," so as to prevent deception or confusion in the mind of a substantial portion of the public.

*It is hereby further ordered,* That paragraph 1 of said order to cease and desist be, and the same hereby is, set aside, and the following order substituted in lieu thereof:

Using any brand or trade name containing the word "Canadian" or any simulation thereof, to designate, describe, or refer to any beer or ale which is not brewed in Canada unless accompanied in immediate connection and conjunction therewith by suitable statements clearly, conspicuously and adequately informing prospective purchasers and the public that such beer or ale is brewed in the United States of America; or otherwise representing directly or by implication, that beer or ale which is not brewed in Canada is brewed in that country.

*It is further ordered,* That the said findings as to the facts and conclusion and order to cease and desist, modified as hereinbefore set forth, shall be as follows:

#### *Modified Findings as to the Facts and Conclusion*

PARAGRAPH 1. The respondent, Manhattan Brewing Company, is a corporation organized under the laws of the State of Illinois, with its principal office and place of business located at 3901 Emerald Avenue, Chicago, Illinois. Respondent is now and for a number of years last past has been engaged in the brewing of beer and ale, and in the sale and distribution of such products to wholesale and retail dealers, restaurants, taverns, and other purchasers.

PAR. 2. In the course and conduct of its business respondent causes and has caused its products, when sold, to be transported from its place of business

in the State of Illinois to purchasers thereof located in various other States of the United States. Respondent maintains and has maintained a course of trade in its products in commerce among and between various States of the United States.

PAR. 3. Respondent is and at all times mentioned herein has been in substantial competition with other corporations and with partnerships and individuals engaged in the sale and distribution of beer and ale in commerce among and between various States of the United States.

PAR. 4. Among the various brands of beer and ale brewed and sold by respondent is a beer designated by respondent as "Canadian Ace Brand Beer" and an ale designated by respondent as "Canadian Ace Brand Ale." The beer was placed on the market in 1939 and the ale in the early part of 1941. Respondent formerly sold another brand of beer designated by it as "Old Wisconsin Lager Brand Beer." This beer was placed on the market in September 1939, but was discontinued in the spring of 1941.

PAR. 5. Respondent advertises its Canadian Ace Brand beer and ale extensively, most of the advertising being what is known as point-of-sale advertising, that is, advertising supplied to the retail seller for display or distribution to the public. The various advertising media used include menu covers and sheets, table display cards, place cards and coasters, paper table napkins, leaflets, booklets, and large show window placards. Radio advertising has also been employed to a limited extent, and at least one advertisement was inserted in a trade journal having general circulation among beer distributors. In all of this advertising the word "Canadian" or the words "Canadian Ace" have been featured. These words are also featured in the labels on the bottles or other containers in which the beer is packaged and sold.

PAR. 6. The Commission finds that the use by respondent of the word "Canadian" as a part of the brand or trade name for these products constitutes a representation that the products are of Canadian origin, that is, that they are brewed in the Dominion of Canada and imported into the United States. Not only does this conclusion necessarily result from a consideration of the word itself, but it is supported also by the testimony of a number of witnesses at the hearings, including both persons in the trade and members of the purchasing public. Neither the beer nor the ale is in fact brewed in Canada, both being brewed by respondent at its place of business in Chicago along with various other products. The evidence further shows, and the Commission finds, that there is a preference on the part of a substantial portion of the purchasing public for beer and ale which is brewed in Canada over that brewed in the United States, this preference being found particularly in those States of the United States which lie nearest the Dominion of Canada.

PAR. 7. Early in 1940 respondent began placing on its labels the words "Made in the U. S. A.," these words appearing at the lower right-hand corner of the label and being imprinted in white on a red background. In the lower left-hand cor-

ner of the label there appear in small type the words "Brewed and Bottled by Manhattan Brewing Co., Chicago, Illinois." Also in some of its advertising material respondent has inserted certain expressions such as "Made in the U. S. A." and "An American beer in the best Canadian tradition." Some of the advertising also carries a picture of the bottle showing the current label.

It is urged by respondent that the use of these words on the labels and in the advertising, particularly the use on the labels of the words "Made in the U. S. A." is sufficient to correct any erroneous impression which might otherwise be conveyed through the use of the word "Canadian," and that in consequence, there is no deception of the public. The Commission is of the opinion, however, and finds that these legends as heretofore used are too inconspicuous and inadequate to adequately explain or qualify the word "Canadian" so as to prevent deception or confusion in the mind of a substantial portion of the public.

PAR. 8. The Commission finds further that the former use by respondent of the word "Wisconsin" as a part of the brand name for one of its products constituted a representation that the beer so designated was brewed in the State of Wisconsin. This beer was not in fact brewed in Wisconsin but was brewed by respondent at its place of business in Chicago. There is a preference on the part of a substantial portion of the purchasing public for beer which is brewed in Wisconsin over that having its origin in other States of the United States.

PAR. 9. In connection with the sale of its Canadian Ace Brand beer and ale, respondent has also made use of a crest simulating the British Royal Coat of Arms, such crest being displayed both in certain of respondent's advertising material and in the labels of the bottles. The use of this crest constituted a representation that respondent was a Royal Warrant holder, enjoying the patronage of the British Royal Family or some member thereof, and was therefore entitled to display the British Royal Coat of Arms on its products. Respondent has not at any time been a Royal Warrant holder and was not authorized to make use of such crest. There is a preference on the part of a substantial portion of the purchasing public for merchandise bearing the British Royal Coat of Arms. In 1942 respondent made material changes in the crest, with the result that the similarity between the crest and the British Royal Coat of Arms was eliminated.

PAR. 10. The Commission finds further that the use by respondent of the word "Canadian" and the word "Wisconsin" in designating and describing its products, and the use of the crest simulating the British Royal Coat of Arms, as herein set forth, has or has had the tendency and capacity to mislead and deceive a substantial portion of the purchasing public with respect to the origin of such products and with respect to respondent's business identity and status, and the tendency and capacity to cause such portion of the public to purchase substantial quantities of respondent's prod-

ucts as a result of the erroneous and mistaken belief so engendered. In consequence thereof, substantial trade has been diverted unfairly to the respondent from its competitors, among whom are many who do not use the practices and methods herein described.

#### Conclusion

The acts and practices of the respondent as herein found are all to the prejudice of the public and of respondent's competitors, and constitute unfair methods of competition in commerce within the intent and meaning of the Federal Trade Commission Act.

#### Modified Order to Cease and Desist

### PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 1, as Amended June 6, 1946]

#### LUMBER, HARDWOOD FLOORING AND MILLWORK

Direction 1 to Priorities Regulation 33 is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of lumber and millwork for defense, for private account and for export; and the following direction is deemed necessary and appropriate in the public interest and to promote the national defense:

(a) *What this direction does*. Priorities Regulation 33 and Direction 8 to Priorities Regulation 33 provide for the assignment to builders, prefabricators and others, of priorities assistance to secure materials listed on Schedule A of Priorities Regulation 33 and List I of Direction 8 to Priorities Regulation 33, which are required for use in the Veterans' Emergency Housing Program. Among these items are lumber, hardwood flooring and millwork. This direction provides that sawmills shall produce a percentage of their total production of lumber in housing construction lumber and hardwood flooring lumber and hold as a reserve for certified orders from distributors, office wholesalers, millwork manufacturers, hardwood flooring manufacturers and prefabricators, as well as rated orders from housing contractors and other consumers. It applies to all sawmills and to lumber distributors, office wholesalers, millwork manufacturers, hardwood flooring manufacturers, prefabricators and housing contractors, and other consumers who have been assigned priorities assistance. It explains how such persons may obtain lumber or lumber products for the purpose for which the priorities assistance was granted and how delivery on such orders must be made. It also provides that the Civilian Production Administration may issue directives to allocate production, direct shipments, and direct or prohibit production of particular items.

This direction does not apply to lumber other than housing construction lumber and hardwood flooring lumber, and all such lumber must be sold and delivered in accordance with Priorities Regulation 1.

#### DEFINITIONS

(b) *Definitions for the purpose of this direction*. (1) "Lumber" means any sawed lumber of any species, size or grade, including rough, surfaced on one or more sides or edges, dressed and matched, shiplapped, worked to pattern, or grooved for splines, except (i) shingles, slabs and round edge lumber; (ii) mine and railway cross ties nine feet or less in length; (iii) any segment of a log which has been produced so that it can be converted into veneer and which is sold and used for that purpose.

(2) "Distributor" means any person who buys and stocks lumber for resale as lumber either at wholesale or retail. A distributor who has two or more distinct and separate yards must for the purpose of this direction, consider each yard a "distributor".

(3) "Housing construction lumber" means softwood lumber in the form of flooring, ceiling, siding, partition, casing, base, moulding stock, strips and boards, two-inch dimension, finish, shop and lath.

(4) "Millwork" means windows, sash, doors; window sash and door frames; window and door screens; out stock for foregoing items; trim, mouldings, built-in kitchen cabinets and other built-in millwork items suitable for authorized housing construction under Priorities Regulation 33.

(5) "Hardwood flooring lumber" means Grades 2 and 3a, rough, in all thicknesses of Oak, Pecan and Beech, in 4/4 and 8/4 thicknesses of Hard Maple and 4/4 and thinner thicknesses in Birch.

(6) "Sawmill" means: (i) any mill or plant, stationary or portable; (ii) any plant or concentration yard which processes (by drying, resawing, edging, grading, sorting, planing, or otherwise) 25 percent or more of the total volume of logs and lumber which it receives, into an item which is defined as lumber. However, the term "sawmill" does not include any establishment known in the trade as a distribution yard engaged in either retail or wholesale business even though it may process, for the servicing of special orders from consumers, more than 25 percent of the lumber it receives.

(7) "Housing contractor" means a builder (applicant) who has been directly assigned

an HH rating under Priorities Regulation 33. It also includes a general contractor who has been directly authorized by such a builder to use the HH rating for the whole job. It does not include a subcontractor authorized to use the HH rating for a part of the job.

(8) "Millwork manufacturer" means a person who consumes a softwood lumber in the manufacture of millwork.

(9) "Hardwood flooring manufacturer" means a person who consumes hardwood flooring lumber in the manufacture of standard hardwood flooring.

(10) "Office wholesaler" means a person who buys lumber for resale but does not stock lumber.

(11) "Certified order" is any order for the delivery of lumber bearing the certificate described in paragraph (1).

(12) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(13) "Prefabricator" means a person engaged in the manufacture of prefabricated houses, panels or sections who has been directly given priorities assistance on Form CPA-4415 to build prefabricated houses, panels or sections.

#### SAWMILLS

(c) *Sawmill reserve production*. The following provisions will govern the amount of housing construction lumber sawmills shall produce and reserve for certified and rated orders.

(1) Each sawmill as described in paragraph (b) (6) above, shall reserve in his over-all production of lumber in footage for the month of June, 1946, and for each calendar month thereafter, time and supplies sufficient to produce and deliver on certified or rated orders within such month at least 50 percent of his expected monthly production of softwood lumber in the form of housing construction lumber, and 100 percent of the Grades 2 and 3a rough, in all thicknesses of Oak and Pecan; 100 percent of Grades 2 and 3a rough, in 4/4 and 8/4 thicknesses of Hard Maple; 25 percent of Grades 2 and 3a rough, in all thicknesses of Beech; and 25 percent of Grades 2 and 3a rough, in 4/4 and thinner thicknesses of Birch.

The Civilian Production Administration may from time to time, change such percentage by publication in the Federal Register prior to the first day of any month.

(2) Where it is the customary practice of a sawmill to season lumber as described in paragraphs (b) (3) and (b) (5) by air drying, the lumber properly piled for seasoning and carried in inventory for this purpose will not be considered as produced until seasoned for the customary period.

(3) This direction does not prevent the free movement of softwood or hardwood lumber between sawmills. However, a sawmill that delivers all or any part of his lumber to another sawmill must still manufacture the percentage required under paragraph (c) (1) above, of his softwood or hardwood production into housing construction lumber or hardwood flooring lumber. A sawmill receiving housing construction lumber or hardwood flooring lumber from another sawmill must hold such lumber for sale on certified or rated orders in addition to his own reserve production. A sawmill delivering housing construction lumber or hardwood flooring lumber to another sawmill may credit against his reserve production under paragraph (c) (1) above the amount of housing construction lumber or hardwood flooring lumber so delivered.

(4) Every sawmill must hold his reserve production until the last day of each month for delivery on certified or rated orders and must accept and ship such orders for delivery in that month in preference to all

other orders to the extent that such orders do not require more than the sawmill's monthly reserve production. The order of precedence for filling certified and rated orders is given in paragraph (m) (1) below. A sawmill, however, must not accept for delivery in any month orders rated MM for more housing construction lumber or hardwood flooring lumber than 5 percent of his reserve production for that month except on special authorization from the Civilian Production Administration. When a sawmill has accepted certified or rated orders for housing construction lumber or hardwood flooring lumber to the extent of his reserve, he must not accept additional certified or rated orders (except AAA), for housing construction lumber or hardwood flooring lumber produced in that month. Any portion of the sawmill's production of housing construction or hardwood flooring lumber not required to fill certified or rated orders received during the month, may be sold only on uncertified and unrated (except AAA) orders.

(5) *Certified orders.* The following types of certified orders placed with the sawmill will be accorded the treatment provided for in paragraph (c) (4) above, and shipments on such orders may be credited against the percentage the sawmill is required to produce and reserve each month: Certified orders from (i) distributors; (ii) millwork manufacturers; (iii) hardwood flooring manufacturers; (iv) office wholesalers; (v) prefabricators.

#### DISTRIBUTORS

(d) *Distributors.* The following provisions tell how lumber distributors may place certified orders for housing construction lumber and how lumber so obtained may be sold:

(1) Any distributor may place certified orders for delivery each month for housing construction lumber with a sawmill, a distributor who sells at wholesale or an office wholesaler for one of the following amounts whichever is greater; (i) starting with the month of June an amount of housing construction lumber not exceeding 7 percent of the amount in footage of his inventory of all softwood lumber as of January 1, 1942, or (ii) two carloads of housing construction lumber in any calendar quarter at the rate of not more than one carload in any month of the quarter.

(2) Every distributor must reserve 75% of the lumber received in any month on certified orders for delivery on certified and rated orders. A distributor must accept all certified and rated orders up to the reserve quantities which are received before the end of the month regardless of whether such orders call for delivery within that month. A distributor, however, may not accept for delivery in any month orders rated MM for more housing construction lumber than 10% of the quantity reserved in that month. In addition, he must not accept certified or rated orders (except AAA) for a quantity in excess of the reserve. Any lumber received on certified orders which a distributor is not required to reserve and any lumber in the reserve for which certified and rated orders are not received during the month, may be delivered by a distributor only on uncertified and unrated (except AAA) orders.

(3) A distributor may not use MM, CC or HH rated orders to get housing construction lumber from a supplier to fill a rated order for housing construction lumber, and he may not use an MM, CC or HH rating to replace in inventory housing construction lumber delivered from inventory on an MM, CC or HH rated order.

#### OFFICE WHOLESALER

(e) *Office wholesaler.* (1) An office wholesaler receiving certified orders from a distributor, millwork manufacturer, hardwood flooring manufacturer, or prefabricator, may place certified orders with the sawmill for an

amount of housing construction lumber or hardwood flooring lumber not in excess of the amount called for by the certified orders which he has received.

(2) An office wholesaler receiving AAA, MM, CC or HH rated orders for not less than carload lots of housing construction lumber or hardwood flooring lumber may extend the rating on such orders to the sawmill for direct mill shipments.

#### MILLWORK MANUFACTURERS

(f) *Millwork manufacturers.* The following provisions tell how millwork manufacturers may place with a sawmill, an office wholesaler or a distributor certified orders for housing construction lumber and how such lumber shall be used, and the millwork sold:

(1) Any millwork manufacturer may place certified orders for delivery in each month starting with the month of June, 1946, for housing construction lumber with a sawmill, an office wholesaler or a distributor for an amount in footage not exceeding 8 percent of the amount in footage of softwood lumber consumed by him in the manufacture of millwork in the year 1940.

(2) A millwork manufacturer must use each month a quantity of lumber equal to all housing construction lumber received on certified orders for the manufacture of millwork. Every millwork manufacturer must reserve 75 percent of the millwork so manufactured for delivery on certified or rated orders. He must accept certified or rated orders up to the reserve which are received before the end of the month, regardless of whether such orders call for delivery within the month. A millwork manufacturer, however, may not accept for delivery in any month orders rated MM for more millwork than 10% of the quantity reserved in that month. In addition, he must not accept certified and rated orders for a quantity in excess of the reserve. Any millwork which the millwork manufacturer is not required to reserve and any millwork in the reserve for which certified and rated orders are not received during the month in which it is manufactured, may be delivered by the millwork manufacturer only on uncertified and unrated (except AAA) orders.

(3) A millwork manufacturer placing certified orders under paragraph (f) (1) above for delivery of housing construction lumber, who receives a rated order (except AAA) for millwork, may not extend the rating to a supplier to get housing construction lumber.

(4) A person not authorized as a millwork manufacturer to place certified orders under paragraph (f) (1) above, who has received an AAA, MM, CC or HH rated order for millwork, may extend the AAA, MM, CC or HH rating to his supplier, except to a sawmill, to get housing construction lumber to be incorporated in the millwork which he will deliver on that order, subject to the applicable inventory regulations.

#### HARDWOOD FLOORING MANUFACTURERS

(g) *Hardwood flooring manufacturers.* The following provisions tell how hardwood flooring manufacturers may place with a sawmill or office wholesaler certified orders for hardwood flooring lumber and how such lumber shall be used and the hardwood flooring sold:

(1) Hardwood flooring manufacturers may place certified orders for delivery each month starting with the month of June, 1946, with a sawmill or with an office wholesaler for hardwood flooring lumber for an amount in footage not to exceed 8 percent of the amount of footage of hardwood flooring lumber consumed in the manufacture of hardwood flooring in the year 1940.

(2) A hardwood flooring manufacturer shall use each month a quantity of hardwood lumber equal to all hardwood flooring lumber received on certified orders for the manufacture of hardwood flooring. Every hard-

wood flooring manufacturer must reserve 75 percent of the hardwood flooring so manufactured during that month for delivery on certified or rated orders. He must accept certified or rated orders up to the reserve which are received before the end of the month, regardless of whether such orders call for delivery within the month. A hardwood flooring manufacturer, however, may not accept for delivery in any month orders rated MM for more hardwood flooring than 10% of the amount reserved in that month. In addition, he must not accept certified and rated orders for a quantity in excess of the reserve. Any hardwood flooring which the hardwood flooring manufacturer is not required to reserve and any hardwood flooring in the reserve for which certified and rated orders are not received during the month it is manufactured, may be delivered by hardwood flooring manufacturer only on uncertified and unrated (except AAA) orders.

(3) Hardwood flooring manufacturers receiving rated orders (except AAA) for hardwood flooring may not extend the ratings to a supplier to get hardwood flooring lumber.

#### HOUSING CONTRACTORS

(h) *Housing contractors.* The following provisions tell how a housing contractor may place with a sawmill distributor or office wholesaler HH rated orders for housing construction lumber:

(1) A housing contractor who has an HH rating may apply the HH rating on orders for housing construction lumber to a distributor, or he may place HH rated orders for delivery each month starting with the month of June, 1946, with a sawmill or with an office wholesaler for housing construction lumber for an amount in footage not in excess of the total lumber required to meet his construction schedule for housing for which he has received priorities assistance under FR-33. Rated orders may be placed with a sawmill or with an office wholesaler for housing construction lumber only to the extent that other rated orders have not been placed with distributors for authorized amounts. The housing contractor must not specify delivery dates on rated orders more than 30 days before the time that the housing construction lumber is needed for incorporation into housing. Furthermore, the housing contractor must not place rated orders for housing construction lumber in which is specified a delivery date later than during the third calendar month after the time when the purchase order was placed.

(2) The housing contractor must use the housing construction lumber obtained on rated orders in the construction of housing for which the priorities assistance was authorized.

#### PREFABRICATORS

(i) *Prefabricators.* The following provisions tell how a prefabricator may place certified orders for housing construction lumber, millwork or hardwood flooring:

(1) A prefabricator may place certified orders for housing construction lumber with a sawmill, distributor or office wholesaler, for millwork with a millwork manufacturer, and for hardwood flooring with a hardwood flooring manufacturer, for an amount not in excess of the total amount of housing construction lumber, millwork or hardwood flooring required to meet a quarterly production schedule for prefabricated houses, panels or other sections for which he has received priorities assistance on Form CPA-4415. A prefabricator must not specify delivery dates (at plant or warehouse) on certified orders more than 30 days before the time the housing construction lumber, millwork or hardwood flooring is needed for incorporation into the prefabricated houses, panels or sections. Furthermore, a prefabricator must not place certified orders for housing construction lumber, millwork or hardwood flooring

in which is specified a delivery date later than during the third calendar month after the time when his purchase order is placed.

(2) A prefabricator must use the housing construction lumber, millwork or hardwood flooring obtained on certified orders for the purposes for which priorities assistance has been granted under Direction 8 to Priorities Regulation 33.

(3) A prefabricator may not apply or extend an HH rating for housing construction lumber, millwork or hardwood flooring.

#### INTEGRATED SAWMILLS

(1) *Sawmills that are also prefabricators, millwork or hardwood flooring manufacturers.* If a person engaged in operating a sawmill is also engaged in manufacturing prefabricated houses, panels or sections, millwork or hardwood flooring, he may transfer housing construction lumber or hardwood flooring lumber from his sawmill to his manufacturing operation provided he is permitted to place monthly certified orders for housing construction lumber, millwork or hardwood flooring lumber. The transfer from the sawmill must be treated as delivery on a certified order and he must keep records of the transfer in his sawmill files and endorse the appropriate certificate on his records.

A person making a transfer permitted in the above paragraph must use or dispose of the housing construction lumber, millwork or hardwood flooring lumber transferred to his manufacturing operation in conformity with the applicable paragraphs above.

#### NEWCOMERS

(k) *Persons not established as distributors, millwork manufacturers or hardwood flooring manufacturers.* (1) Any person who was not on January 1, 1942, a lumber distributor and wants permission to place monthly certified orders for an amount of housing construction lumber in excess of two carloads of housing construction lumber in any calendar quarter at the rate of not more than one carload in any month of the quarter, may apply by letter to the Civilian Production Administration.

(2) Any person who was not, in the year 1940 a millwork or hardwood flooring manufacturer, and wants permission to place monthly certified orders may apply by letter to the Civilian Production Administration.

(3) Any person applying by letter under subparagraph (1) or (2) above should state how much housing construction lumber or hardwood flooring lumber he needs each month, proximity of his place of business to similar businesses, and any other information to help the Civilian Production Administration decide what amount of housing construction lumber or hardwood flooring lumber is needed by him to engage in business. Such application will be processed in an equitable manner.

#### CERTIFICATION ON ORDERS

(1) *Certification on orders.* To certify an order for housing construction lumber or hardwood flooring lumber or millwork or hardwood flooring under this direction, the following certificate must be endorsed on or attached to the purchase order, sales ticket or other delivery orders. Certificates must be signed manually or as explained in Priorities Regulation 7. However, the standard form described in that regulation may not be used in place of certificate described in this direction. The certification required by this direction may not be waived under paragraph (f) or Priorities Regulation 7. The Serial Number must be inserted by persons holding authorizations on Form CPA-4386 or Form CPA-4415 in the place provided in the certificate. Orders placed verbally must be confirmed immediately and the confirmation must bear the appropriate certificate. The certificate must be substantially as follows:

The undersigned certifies to the supplier and to the Civilian Production Administration that he is a (distributor, millwork manufacturer, hardwood flooring manufacturer, prefabricator, office wholesaler) and that the quantities of housing construction lumber or hardwood flooring lumber or millwork or hardwood flooring covered by this order (together with all other certified orders for the particular material for delivery in the month specified in this order) do not exceed the amount permitted under Direction 1 to Priorities Regulation 33 with the provisions of which he is familiar.

#### MISCELLANEOUS

(m) The following provisions generally affecting sawmills, distributors, millwork manufacturers, hardwood flooring manufacturers, prefabricators, housing contractors, and office wholesalers, should be carefully read:

(1) *Status of certified orders.* Certified orders for the purpose of this direction shall be subject to the rules for acceptance and rejection of rated orders as provided in Priorities Regulation 1 except as modified in this direction. The order of precedence is (subject to any provision limiting the quantity of orders that need be accepted) as follows:

(i) At sawmill; (i) AAA; (ii) MM; (iii) certified; (iv) CC and MH;

(ii) At a supplier other than a sawmill; (i) AAA; (ii) MM; (iii) CC, MH and certified orders which are of equal value.

(2) *Applicability of regulations.* Except as otherwise required by this direction, Priorities Regulations 1 and 3 continue to govern the use of ratings and the acceptance, scheduling and filling of orders placed with distributors and sawmills. All other applicable regulations and orders of the Civilian Production Administration must be observed where not inconsistent with this direction.

(3) *Extension of preference ratings.* For the purpose of this direction the extendibility of ratings (except AAA) is governed by paragraphs (d), (e), (f), (g) and (h) which rules supersede paragraphs (d) and (d-1) of Priorities Regulation 3.

(4) *Violations.* Any person who wilfully violates any provision of this direction or who, in connection with this direction, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Reports.* Every person shall file with the Civilian Production Administration, or any other federal agency, through which the Civilian Production Administration may distribute housing construction lumber, such reports and questionnaires as the Civilian Production Administration or such other agency may from time to time require subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(6) *Directives.* The term "directive" as used in this direction means written instructions to a specific person regarding the manufacture, delivery, or use of lumber, millwork or hardwood flooring. The Civilian Production Administration may issue directives requiring sawmills, millwork manufacturers or hardwood flooring manufacturers or distributors to set aside specific quantities or percentages of production or shipments for persons placing certified or rated orders. It may also allocate production or shipments to specified persons for specified uses, and may direct how and in what quantities deliveries to specified persons or uses may be made. It may also direct distribution to

particular areas and may direct or prohibit the production by any person of particular items of lumber, millwork or hardwood flooring. Directives supersede any preference ratings (except AAA) or certifications assigned to particular purchase orders or contracts. They may be issued for the satisfaction of Veterans' Emergency Housing Program and essential civilian requirements, and in order to carry out more fully the purposes of this direction.

(7) *Appeals.* Any appeal from the provisions of this direction should be made by mailing a letter in triplicate to the Civilian Production Administration, Forest Products Division, Washington 25, D. C., Ref., Direction 1 to Priorities Regulation 33, stating the particular provision appealed from and stating fully the grounds for the appeal.

(8) *Communications.* All communications unless otherwise directed must be addressed as follows: Civilian Production Administration, Forest Products Division, Washington 25, D. C.

## PART 1356—COOKERS AND HEATERS

[MPR 64, Amdt. 7]

## DOMESTIC COOKING AND HEATING STOVES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 64 is amended in the following respects:

1. Section 2 is amended to read as follows:

**SEC. 2. Persons and transactions covered.** (a) This regulation covers all sales of domestic cooking and heating stoves by a manufacturer to any person. As used in this regulation, a "manufacturer" of a particular stove is (1) a person who operates a factory in which the stove is assembled or manufactured, or (2) a person who regularly sells the stove under a private brand to distributors or jobbers or wholesalers.

Under the circumstances set forth in section 11 of this regulation, an order under this regulation may establish maximum prices for sales of stoves by wholesalers and retailers. Ceiling prices for sales by persons other than manufacturers are governed by the General Maximum Price Regulation or Maximum Price Regulation No. 210 as modified by the provisions of this regulation and orders issued under it.

(b) The word "person" includes an individual, corporation or any other organized group, their legal successors or representatives, the United States or any Government or any of their political subdivisions.

2. Section 7 (a) (1) is amended to read as follows:

(1) Find the model of stove for which you have a ceiling price which is comparable to the stove being priced. The "comparable" model is the one which is like the stove being priced in design, construction, process of manufacture and fuel type, and which is closest to it in unit direct cost. If a stove on which "minor changes" have been made is subsequently used as the "comparable" model the cost for the "comparable" model shall be computed on the basis of the cost to make the stove without the "minor changes." If the changes in the new model include minor changes, the cost of the new model shall be computed on the basis of the cost to make it without the minor changes.

3. Section 8b is amended to read as follows:

**SEC. 8b. Manufacturers' reconversion increases of certain ceiling prices.**—(a) *Stoves other than electric ranges.* This paragraph authorizes certain reconversion adjustments of ceiling prices by manufacturers of stoves other than electric ranges. As used in this regulation the term "electric ranges" includes electric combination ranges. An electric combination range is one which consists of an electric range with three or more top burners or two or more top burners and an oven or broiler burner, in combination with another unit which uses

a fuel other than electricity. Combination stoves which include less than three electric top burners, or less than two top burners and an oven or broiler burner are not electric combination ranges. Unless directed otherwise by an order issued under this section by the Office of Price Administration every manufacturer of stoves other than electric ranges may adjust his ceiling prices for his sales of such stoves to persons other than ultimate consumers which have been established under sections 3, 4, 5, 7, or 8 of the regulation, by adding to that price an amount equal to five percent of that price.

The five percent adjustment charge permitted by this section is hereby designated as the "OPA industry reconversion increase"

(b) *Electric ranges.* This paragraph authorizes a reconversion adjustment of ceiling prices by manufacturers of electric ranges. Unless directed otherwise by an order issued by the Office of Price Administration under this section, every manufacturer of electric ranges covered by this regulation may adjust his f. o. b. factory ceiling prices (exclusive of the Federal excise tax) for sales to persons other than ultimate consumers established under sections 3, 4, 5, 7, or 8 of the regulation by adding to that price an amount equal to eleven percent of that price. The increase granted by this paragraph is hereby designated as the "OPA industry electric range reconversion increase"

(c) *"Additional OPA industry reconversion increase" of manufacturers' ceiling prices.* This paragraph authorizes an "additional OPA industry increase" by manufacturers of their ceiling prices for stoves other than electric ranges. Unless directed otherwise by an order issued under this regulation by the Office of Price Administration, every manufacturer of any stoves covered by this regulation other than electric ranges may further adjust any ceiling price for his sales which has been adjusted under section 8b (a) of this regulation by adding to that price an amount equal to 7.6 percent of that price. The increase granted by this paragraph is hereby designated as the "additional OPA industry reconversion increase" Thus the total increase granted under this section 8b to manufacturers of stoves other than electric ranges over their ceiling prices established under sections 3, 4, 5, 7, or 8 is 13 percent.

(d) *Denial of the industry reconversion increase by order.* Orders will be issued under this section denying a manufacturer permission to adjust his ceiling prices by all or part of the increases granted under this section when it appears to the Price Administrator on the basis of the manufacturer's production reports as filed under Supplementary Order No. 146 and other information available to the Office of Price Administration, that the manufacturer has discontinued production of his low-end model of any type of stove which he produces or has decreased the proportion of low priced to high priced models of each type of stove which he manufactures so that his present production is not representative of his production in

that respect of those stoves during the year July 1, 1940 through June 30, 1941. The average price at which the manufacturer's production of each type of stove will be sold will be considered in determining how much, if any, of the increase will be granted to such a manufacturer.

(e) *Notification.* At the time of or prior to the first invoice to each purchaser for resale of a stove sold on or after June 7, 1946 at a price which includes any part of the adjustments granted by this section the manufacturer shall notify the purchaser in writing that the price the manufacturer is charging includes an adjustment under section 8b and that the purchaser for resale must find his ceiling prices under section 11a if he is a wholesaler, or under section 11b if he is a retailer. If the stove is an electric range the manufacturer must also notify each wholesale distributor of the retail ceiling prices which he has determined for the range under the provisions of sections 11b or 11e of this regulation.

4. Section 9 is amended to read as follows:

**SEC. 9. Sales to the United States and Allied Governments.**—(a) *Sales to the United States and Allied Governments of stoves for which the manufacturer has established ceiling prices.* The ceiling price for sales by a manufacturer to any agency of the United States Government or of any Allied Government of any stove covered by this regulation shall be the manufacturer's lowest ceiling price for sales of the stove f. o. b. factory to a wholesale distributor, or if he has no ceiling price for sales to a wholesale distributor, his lowest ceiling price for sales f. o. b. factory to any reseller. The ceiling prices so determined may be increased by the manufacturer's customary charge for service if the agency purchasing the stove requires the seller to service it for a period of one or more years.

(b) *Ceiling prices requiring prior approval under this regulation.* A manufacturer may sell and deliver and tentatively collect a price for any stove which he sells directly to any agency of the United States Government or of any Allied Government without prior approval of the Office of Price Administration when such prior approval would otherwise be required under the applicable pricing method. The manufacturer must, however, inform the buyer that the ceiling price is still to be established under this regulation and must refund any amount he collected which is in excess of the ceiling price approved for the sale by the Office of Price Administration. Within ten days after the manufacturer has entered into a contract for such a sale, he must file a report or an application as provided in section 7 or 8.

5. Section 11a is amended to read as follows:

**SEC. 11a. Reconversion adjustments of wholesale ceiling prices.**—(a) *Stoves other than electric ranges.* A wholesale distributor shall determine his adjusted ceiling prices for his sales of any stove other than an electric range which the

manufacturer sells to him at a price which includes any part of the increases permitted by sections 8b (a) and 8b (c) as follows:

(1) If his ceiling price for the same stove was established or determined before June 7, 1946 under the General Maximum Price Regulation, Maximum Price Regulation No. 210 or an order under section 11 of this regulation, or if his ceiling price is determined under section 1499.2 of the General Maximum Price Regulation on or after June 7, 1946 he shall redetermine that ceiling price by subtracting from the ceiling price so established or determined the amounts included therein on account of the "OPA industry reconversion increase" and the Federal excise tax, increasing the result by 9.0 percent, and adding thereto the dollar-and-cent amount of any Federal excise tax paid by the manufacturer on the stove.

(2) If he establishes his ceiling price on or after June 7, 1946 under a provision which requires him to compute his ceiling prices on the basis of cost, he shall use as his cost for that purpose his supplier's ceiling price not including the "OPA industry reconversion increase" of 5 percent or the "additional OPA industry reconversion increase" of 7.6 percent allowed the manufacturer by sections 8b (a) and 8b (c) of this regulation or any amount included therein on account of the Federal excise tax. To the ceiling price so computed he may add an amount equal to 9.0 percent of that price and the exact amount of any Federal excise tax paid on the stove by the manufacturer.

(3) If his ceiling prices are established on or after June 7, 1946 by an order under section 11 of this regulation or under § 1499.3 (e) of the General Maximum Price Regulation or by an approval under § 1499.3 (c) of the same regulation, and the order or approval does not specifically authorize the addition of an adjustment under this section to the wholesale distributor's ceiling prices, his ceiling prices under this section are those established by the order or approval.

(4) If his ceiling prices are established on or after June 7, 1946 under § 1372.103 of Maximum Price Regulation No. 210, his ceiling prices under this section are those he established under § 1372.103 of Maximum Price Regulation No. 210.

(b) *Electric ranges.* A wholesale distributor's ceiling prices for sales of a particular model of electric range to a particular class of purchaser is that established by an order issued under section 11 of this regulation after June 6, 1946. A wholesale distributor of electric ranges who has ceiling prices established for his sales of a particular range by an order under section 11 of this regulation issued before June 7, 1946, shall determine his adjusted ceiling prices for his sales of any such electric range which the manufacturer sells to him at a price which includes any part of the adjustment permitted by section 8b (b) in accordance with the first applicable rule of the following contained in this section:

*Rule 1.* A wholesale distributor's ceiling price for sales in each zone of each model to retail dealers who provide consumers purchasing from them with delivery, installation

and the servicing necessary to comply with the first year warranty shall be the price which will yield the wholesale distributor the same percentage of the total dollar margin between the manufacturer's ceiling price to him (including the Federal excise tax) and the dealer's ceiling price (including the Federal excise tax) for resales to ultimate consumers in that zone as he received during the period May 7, 1946 to June 6, 1946 in connection with the sale of the most "comparable" model sold by him to the same class of purchaser. To be "comparable" a model must be one produced by the same manufacturer. A wholesale distributor determining his ceiling prices under this rule shall calculate his ceiling prices for sales to other classes of purchasers on the basis of the differentials which he had on sales of the comparable model to different classes of purchasers.

*Example:* A distributor who sold Model X produced and sold by manufacturer Y during the period May 7, 1946 to June 6, 1946 to servicing dealers at a dollar-and-cent ceiling price established by an order under Maximum Price Regulation No. 64 computes his ceiling prices for resales of the Model X electric range as follows:

Retail ceiling price in the distributor's zone including the Federal excise tax.....	\$210.00
Retail ceiling price in distributor's zone, exclusive of Federal excise tax.....	200.00
Manufacturer's ceiling price, f. o. b. factory to distributors on April 30, 1946, exclusive of the Federal excise tax.....	160.00
Gross dollar margin.....	100.00
Distributor's ceiling price exclusive of the Federal excise tax to servicing dealers on May 15, 1946.....	125.00
Amount of total dollar margin received by the distributor.....	25.00
Percent of gross margin.....	25%
Manufacturer's ceiling price to distributors adjusted under section 8b (b).....	111.00
Retail ceiling price under section 11b exclusive Federal excise tax.....	204.00
Gross dollar margin.....	93.00
Portion taken by distributor (25% of \$90.00).....	22.50
Distributor's new ceiling price exclusive of the Federal excise tax to servicing dealers.....	134.25
Distributor's new ceiling price to servicing dealers including the Federal excise tax.....	145.35

Distributor may determine his ceiling price for sales to other classes of dealers by adding his customary differentials for such sales.

*NOTE:* To assist the wholesale distributor in making this computation, a manufacturer who sells electric ranges at prices which include the "OPA industry electric range reconversion increase" is required to notify the wholesale distributor at the time of, or prior to the first invoice covering such sales, of the retail ceiling prices which he has determined for those ranges under the provisions of sections 11b or 11c of this regulation.

*Rule 2.* If a wholesale distributor cannot determine his ceiling price for sales of a particular model of electric range to a particular class of purchaser under Rule 1, his ceiling price for that sale is the ceiling price established under this paragraph for the same sale by the "closest seller of the same class." A wholesale distributor's "closest seller of the same class" is a distributor who (a) has established a ceiling price for sales of the identical model of electric range to the same class of purchaser, and (b) is the same general type of seller, and (c) is located in the same zone and is nearer to the seller than any other seller who meets requirements (a) and (b) of this rule.

*Rule 3.* If the wholesale distributor cannot otherwise find his ceiling price for a

particular sale, his ceiling price for that sale is the price established by the Office of Price Administration in an order under this section. An application under this rule shall state the name of the manufacturer of the electric range being priced, its model designation, the classes of purchaser to whom the applicant proposes to sell the range, the ceiling prices he proposes for such sale, and a statement of the reasons he cannot use the other rules in this section.

(c) *Notification.* At the time of, or prior to the first invoice to each purchaser for resale of a stove sold on or after June 7, 1946 at a price determined in accordance with this section 11a, each wholesale distributor shall notify the purchaser in writing that each purchaser for resale at retail must find his resale ceiling prices under section 11b of this regulation. This notice may be given in any convenient form.

5. Section 11b is amended to read as follows:

*Sec. 11b. Retail ceiling prices of stores subject to an industry reconversion increase—(a) Stores not subject to the Federal excise tax.* A retailer shall determine his ceiling prices for his sales of any stove covered by this regulation which is not subject to the Federal excise tax when sold by the manufacturer and which he purchases at prices which include an adjustment under section 8b or 11a of this regulation, as follows:

(1) He shall increase by 3.0 percent and then round to the nearest 25 cents those of his ceiling prices established before June 7, 1946, under the General Maximum Price Regulation, or Maximum Price Regulation No. 210, or a central pricing order issued under § 1493.4a of the General Maximum Price Regulation or Supplementary Order No. 13 as amended or revised, or under section 11 of this regulation.

(2) He shall increase by 3.0 percent and then round to the nearest 25 cents those of his ceiling prices established after June 6, 1946, under § 1493.2 of the General Maximum Price Regulation.

(3) A seller who establishes his ceiling prices on or after June 7, 1946, under a provision which requires him to compute his ceiling price on the basis of cost, shall use as his cost for that purpose his supplier's ceiling price to him exclusive of any adjustment taken by his supplier under section 8b or section 11a. He shall compute his ceiling price under this section by adding to the price determined upon the cost basis defined above an amount equal to 3.0 percent of that price and rounding the result to the nearest 25 cents.

(4) If his ceiling prices are established on or after June 7, 1946, by an order under section 11 of this regulation or under § 1493.3 (e) of the General Maximum Price Regulation or by an approval under § 1493.3 (c) of the same regulation and the order or approval does not provide that the retail ceiling prices shown therein may be adjusted under this section, the retailer's ceiling prices under this section are those established by the order or approval.

(b) *Stores subject to the Federal excise tax other than electric ranges.* Included among stoves covered by this regulation and subject to a Federal ex-

else tax assessed on the sale by the manufacturer are gas ranges including gas combination and gas bungalow ranges, oil ranges including oil combination and bungalow ranges, oil cooking stoves, and gas hot plates and gas laundry stoves. A retailer shall determine his ceiling prices for stoves subject to the Federal excise tax (other than electric ranges) which he purchases at prices which include an adjustment under section 8b or 11a of this regulation as follows:

(1) If the retail ceiling price is a uniform dollar-and-cent price set by an order issued under section 11 of this regulation before June 7, 1946 which includes the Federal excise tax he shall increase that price by 3.7 percent and round the result to the nearest 25 cents. The result is his new ceiling price inclusive of the Federal excise tax.

(2) If the retail ceiling price has been established before June 7, 1946 under the General Maximum Price Regulation, or Maximum Price Regulation No. 210, or a central pricing order issued under § 1499.4a of the General Maximum Price Regulation or Supplementary Order No. 13 as amended or revised and he passed on to his customers the Federal excise tax paid by the manufacturer he shall compute his new ceiling price by increasing the ceiling price for the stove established by him before June 7, 1946 by 3.7 percent of that price and rounding the result to the nearest 25 cents.

(3) He shall increase by 3.7 percent ceiling prices which he establishes after June 6, 1946, under § 1499.2 of the General Maximum Price Regulation.

(4) A retailer who establishes his ceiling price on or after June 7, 1946 under a provision which requires him to compute his ceiling prices on the basis of cost shall use as his cost for that purpose his supplier's ceiling price exclusive of any adjustment under section 8b or 11a. He shall compute his ceiling price under this section by adding to the price determined upon the cost basis defined above an amount equal to 3.7 percent of that price, and rounding the result to the nearest 25 cents.

(5) If his ceiling prices are established on or after June 7, 1946, by an order under section 11 of this regulation or under § 1499.3 (e) of the General Maximum Price Regulation or by an approval under § 1499.3 (c) of the same regulation and the order or approval does not provide that the retail ceiling prices shown therein may be adjusted under this section, the retailer's ceiling prices under this section are those established by the order or approval.

(6) If his ceiling prices are established on or after June 7, 1946 under § 1372.103 of Maximum Price Regulation No. 210, the retail ceiling prices under this section are those established under § 1372.103 of Maximum Price Regulation No. 210.

(c) *Electric ranges.* Notwithstanding the provisions of any order issued under section 11 of this regulation before June 7, 1946, ceiling prices for any electric range sold by the manufacturer at prices adjusted in accordance with section 8b

of this regulation are the prices properly calculated by the manufacturer in accordance with this paragraph. Every manufacturer of electric ranges who has had retail ceiling prices established for his ranges by an order issued under section 11 of this regulation before June 7, 1946, is required to recalculate those retail ceiling prices under the first applicable rule of the following:

*Rule 4.* If the retail ceiling price for sales of a particular model in Zone 1 (exclusive of the Federal excise tax and any amounts included therein on account of freight) is 187% or less of the product of 1.07 and the manufacturer's lowest f. o. b. factory ceiling price (exclusive of the Federal excise tax) established under sections 3, 4, 5, 7, or 8 of this regulation for sales of that model to wholesale distributors, the retail ceiling price for sales of that model to consumers in Zone 1 is the total rounded to the nearest 25 cents, of the following:

(1) The retail ceiling price previously established by the order under section 11 diminished by the amount of the Federal excise tax included therein, and

(2) An amount equal to 4.0 percent of the manufacturer's lowest f. o. b. factory ceiling price (exclusive of the Federal excise tax) established under sections 3, 4, 5, 7, or 8 of this regulation for sales of the same model to wholesale distributors, and

(3) The Federal excise tax applicable to his lowest f. o. b. factory ceiling price to wholesale distributors.

Retail ceiling prices for sales of the same model to consumers in zones other than Zone 1 shall be determined by adding to the Zone 1 retail ceiling price determined under this rule the dollar-and-cent amount of the previously established differential between retail ceiling prices in Zone 1 and in each of the other zones in effect on the same model.

*Rule 5.* If the retail ceiling price for sales of a particular model in Zone 1 (exclusive of the Federal excise tax and any amount included therein on account of freight) is more than 187% of the product of 1.07 and the manufacturer's lowest f. o. b. factory ceiling price (exclusive of the Federal excise tax) established under sections 3, 4, 5, 7, or 8 of this regulation for sales of that model to wholesale distributors, the retail ceiling price for sales of the model in Zone 1 shall be the higher of the following amounts:

(1) The total rounded to the nearest 25 cents, of the ceiling price in effect before June 7, 1946, and the dollar-and-cent amount of the increase in the Federal excise tax resulting from the increase in the manufacturer's price under section 8b (b), or

(2) The total rounded to the nearest 25 cents, of the following:

(i) 187 percent of the product of 1.07 and the manufacturer's lowest f. o. b. factory ceiling price (exclusive of the Federal excise tax) established under sections 3, 4, 5, 7, or 8 of this regulation for sales of the same model to wholesale distributors, and

(ii) An amount equal to 4.0 percent of the manufacturer's lowest f. o. b. factory ceiling price (exclusive of the Federal excise tax) established under sections 3, 4, 5, 7, or 8 of this regulation for sales of the same model to wholesale distributors, and

(iii) The Federal excise tax applicable to his lowest f. o. b. factory ceiling price to wholesale distributors, and

(iv) The amount included on account of freight in the Zone 1 retail price previously established by the order under section 11 of this regulation.

Retail ceiling prices for sales of the same model to consumers in zones other than Zone 1 shall be determined by adding to the Zone 1 retail ceiling price determined under this rule the dollar-and-cent amount of the pre-

viously established differential between the retail prices in Zone 1 and in each of the other zones in effect on the same model.

*Rule 6.* If a manufacturer cannot determine retail ceiling prices for sales of a particular model of electric range under the preceding rules of this section, he may apply under this rule for the establishment of retail ceiling prices for that particular model. Orders will be issued under section 11 of this regulation establishing retail ceiling prices for such ranges in line with the level of ceiling prices established under this regulation. An application under this rule shall state the name of the manufacturer, the model designation of the range being priced, and a statement of the reason why the applicant cannot determine retail ceiling prices for the range under the other rules of this paragraph.

7. Section 11c is amended to read as follows:

*Sec. 11c. Sales invoices to purchasers for resale.* Any person making a sale to purchasers for resale of any articles covered by this regulation must furnish purchasers for resale with an invoice containing the following:

(a) His name and address and the date of the invoice.

(b) The purchaser's name and address.

(c) The model designation of the articles and such other description as may be necessary to identify the article on his pricing records.

(d) His OPA ceiling price.

8. A new section 11d is added to read as follows:

*Sec. 11d. Labelling.* Unless an order under this regulation provides otherwise:

(a) On and after June 17, 1946, a manufacturer may not sell or ship any gas range, gas combination range, gas bungalow range, or electric range to a wholesale distributor or retailer other than a mail order house unless there is securely attached to the inside or outside panel of the oven door of the stove in a place where it can be plainly seen a label which is headed "OPA Retail Ceiling Price Label" which plainly states the OPA retail ceiling prices established for sales of the range in each zone a statement of the area contained in each zone, the manufacturer's name or the brand name of the range, its model designation, a statement of what the retail ceiling prices include, and a statement that the "OPA Retail Ceiling Price Label" may not be removed until after the range is sold and delivered to a consumer. This "OPA Retail Ceiling Price Label" may not be removed until after the range has been sold and delivered to the consumer.

(b) On or after July 7, 1946, no person other than a seller on a mail order basis may display, offer for sale, sell or deliver to a consumer any electric range, gas range, gas combination range or gas bungalow range unless ceiling prices have been established for resales of the range under this regulation and there is attached to the range in the place designated in paragraph (a) above a label which is provided by the manufacturer or the particular person specified in an order fixing resellers' ceiling prices and which contains all the information required by paragraph (a) of this section.

(c) The retail ceiling prices which appear on the label attached to an electric range, gas range, gas combination range or gas bungalow range which the manufacturer has sold at a price adjusted under section 8b of this regulation shall be the retail ceiling prices determined in accordance with section 11b or 11e of this regulation.

9. A new section 11e is added to read as follows:

**SEC. 11e. Establishment of retail ceiling prices for certain new model gas and electric ranges—(a) Formula method.** If no retail ceiling prices have been established before June 7, 1946 for sales of any stove of a type for which dollar-and-cent retail ceiling prices have been established under section 11 of this regulation (This includes but is not limited to electric ranges, gas ranges, gas combination ranges and gas bungalow ranges) and the manufacturer has determined his f. o. b. factory ceiling prices for sales of the stove to purchasers for resale under section 3 or 7 and adjusted them under section 8b, the retail ceiling prices of the stove are the prices determined by the manufacturer according to the following formula:

(1) He shall find the model of stove in his line for which he has a zone 1 retail ceiling price based upon an order issued under this regulation and which is "comparable" to the stove being priced. The "comparable" model is the one which is most like the stove being priced in design, construction, manufacturing process, operation, weight, and fuel type and which has an f. o. b. factory ceiling price to the class of purchaser who buy from the manufacturer in the greatest volume which is closest to that determined for sales of the stove being priced to the same class of purchaser.

(2) He shall find his mark-up factor by dividing the retail ceiling price in Zone 1 of the comparable model (exclusive of the Federal excise tax and any amounts included therein on account of freight, delivery and installation) by its f. o. b. factory ceiling price to the class of purchaser who buy from him in the greatest volume.

(3) He shall apply that percentage mark-up to the f. o. b. factory ceiling price (exclusive of the Federal excise tax) of the stove being priced to that class of purchasers to whom he sells in the greatest volume. The result increased by the Federal excise tax applicable to his f. o. b. factory ceiling price for his sales to the class of reseller to whom he sells at his lowest ceiling price and the amount included in the retail ceiling price of the "comparable" model on account of freight, delivery, and installation and rounded to the nearest 25 cents is the retail ceiling price in Zone 1 of the stove being priced.

He shall then determine the retail ceiling prices of the stove being priced in zones other than Zone 1 by adding to the Zone 1 retail ceiling price determined in accordance with this section the dollar-and-cent amount of the differential in effect on the "comparable" model between its retail ceiling prices in Zone 1 and in each of the other zones.

(b) *Retail ceiling prices established by order.* A manufacturer who cannot determine retail ceiling prices under paragraph (a) of this section for sales of a particular model of electric range, gas range, gas combination range, gas bungalow range or any other stove of a type for which dollar-and-cent retail ceiling prices have been established under section 11 of this regulation for which he first establishes his ceiling prices after June 6, 1946, shall apply under this paragraph for the establishment of retail ceiling prices for that particular model. Orders will be issued under section 11 of this regulation establishing retail ceiling prices for such stoves in line with the level of ceiling prices previously established for similar stoves under the applicable regulations. An application under this paragraph shall state the name of the manufacturer, the model designation of the stove being priced, and a statement of the reason why the applicant cannot determine retail ceiling prices for the stove under paragraph (a) of this section.

8. A new section 11f is added to read as follows:

**SEC. 11f. Zones.** For purposes of this regulation the zones referred to in sections 11a, 11b, 11d, and 11e are those defined for the manufacturer in individual resale ceiling price orders issued under this regulation or under Supplementary Orders No. 119 or 133. Where a single national retail ceiling price has been fixed for a particular stove, the manufacturer shall treat the retail ceiling price for each stove as his Zone 1 price for that stove.

9. Section 12 is amended to read as follows:

**SEC. 12. Modification of provisions of this regulation.** The provisions of this regulation as applied to classes of commodities or persons subject thereto may be modified by orders of general application issued under this section.

10. A new section 12a is added to read as follows:

**SEC. 12a. Modifications of zoning practices and terms and conditions of sales.** A manufacturer who desires to change any of his terms, discounts, allowances, price differentials, conditions of sale or zoning practices in effect during the period January 15 to June 1, 1941 or thereafter properly established under the applicable regulation, shall apply to the Office of Price Administration, Washington, D. C., setting forth in detail the proposed changes and the reasons therefor. The Price Administrator may grant permission to the manufacturer to make the proposed changes when, in his opinion, the manufacturer has demonstrated that the general level of his ceiling prices to each class of purchaser will not be raised thereby, and that the granting of such permission will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. Orders will be issued under this section changing a manufacturer's terms, discounts, allowances, price differentials or conditions of sale or his zoning practices and prices and, where it is necessary, those of his

wholesalers and retailers accordingly. No manufacturer may, prior to the issuance of an order by the Office of Price Administration authorizing such a change, change his established terms, discounts, allowances, price differentials, or conditions of sale. Nothing in this section shall be construed as forbidding a manufacturer from selling below his established ceiling prices.

11. A new section 12b is added to read as follows:

**SEC. 12b. (a) Credit charges and terms of sale.** (1) Any person selling at retail articles covered by this regulation for which dollar-and-cent retail ceiling prices have been established based upon an order under this regulation or under Supplementary Orders No. 119 or No. 133 who, during March 1942, collected a separately stated additional charge for the extension of credit on sales of such articles, may collect a charge for the extension of credit under this regulation, not exceeding such charge during March, 1942 on a similar sale on similar terms to the same class of purchaser. Retailers who did not so state and collect an additional charge, may collect a charge for the extension of credit only on installment plan sales; and the charge shall not exceed the separately stated additional charge for the extension of credit on a similar sale on similar terms to the same class of purchaser during March 1942, by the retailer's closest competitor who made a separately stated charge.

An installment-plan sale as used in the above paragraph means a sale where the unpaid balance is to be paid in installments over a period of either (1) six weeks or more from the date of sale in the case of weekly installments, or (2) eight weeks or more in the case of other than weekly installments.

(2) All charges for the extension of credit shall be quoted and stated separately. Any charge which is not quoted and stated separately or which otherwise does not conform to this subsection, shall, for the purposes of this regulation, be considered to be part of the price charged for the stove sold.

(3) No retailer may require as a condition of sale that the consumer must buy on credit.

(b) *Terms of sale.* Unless this regulation or an order issued under it provides otherwise every resale ceiling price established by or under this regulation is subject to terms, discounts, allowances and other price differentials, no less favorable than those the reseller had in effect for similar sales during March 1942. If the reseller made no such sales during March 1942, his ceiling prices are subject to the terms, discounts, allowances, and other price differentials, no less favorable than those of his closest competitive seller of the same class during the same period on sales of similar articles of which were thereafter properly established under applicable OPA regulations.

12. A new section 12c is added to read as follows:

**SEC. 12c. Reporting of retail ceiling prices.** Every manufacturer who deter-

mines or redetermines the retail ceiling prices for any of his stoves in accordance with sections 11b or 11e of this regulation and is required to preticket that stove with the retail ceiling prices so determined in accordance with section 11d must send a report to the Office of Price Administration, Washington 25, D. C. containing the model designation and retail ceiling price in each zone of every such stove. This report must be filed within 15 days after the particular model is first sold or offered for sale by the manufacturer preticketed with the retail ceiling prices determined under this regulation. If the prices so reported are incorrect this Office may issue an order under this section establishing the correct retail ceiling prices.

Section 13 is amended to read as follows:

SEC. 13. Compliance with the regulation—(a) *No buying or selling at over ceiling prices.* Regardless of any contract or other obligation, no person shall sell, offer to sell, or deliver, and in the course of trade or business, no person shall purchase or accept delivery of a heating or cooking stove at a price higher than the ceiling price fixed by this regulation, or before the seller has properly determined his ceiling price under this regulation.

If, in violation of this provision, a sale, offer to sell or delivery of a heating or cooking stove is made before its ceiling price has been properly established in accordance with this regulation, the ceiling price applicable to the sale, offer to sell or delivery shall be the correct ceiling price for the heating or cooking stove properly determined in accordance with this regulation.

(b) *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

(c) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(d) *Certain practices forbidden.* Any practice which has the effect of getting a higher-than-ceiling price without actually raising the dollar and cents price is hereby forbidden.

The following is an illustrative list of the things a seller is not permitted to do. A seller is not permitted to require the purchaser, as a condition of the sale or transfer of the heating or cooking stove to make payment over a period of time; to require him to finance the purchase through any particular lending agency; to require him to purchase any equipment, accessories, repairs, parts, or services so as to increase the total compensation received by the seller above the ceiling price of the stove; to require the purchaser to purchase any other commodity

or service; or to require him to make payment in whole or in part by exchanging, transferring or trading in any other product or commodity. Where there is an exchange, transfer, or trade-in in connection with a sale, it is a violation for the seller to give the purchaser an allowance, for the product or commodity exchanged, transferred, or traded in, which is less than its reasonable value.

Furthermore, the seller is prohibited from providing for the purchase of the stove by a lessee under a rental contract at an agreed valuation which together with the amount paid for the rental is higher than the applicable ceiling price at the time the rental contract is entered into, and from making the terms and conditions of sale more onerous to purchasers than they customarily have been except to the extent allowed by this regulation.

SEC. 14. *Geographical applicability.* The provisions of this regulation shall be applicable in the forty-eight States and the District of Columbia.

This amendment shall become effective on the 7th day of June 1946.

NOTE: All the reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 5th day of June 1946.

## PART 1499—COMMODITIES AND SERVICES

[RMPR 165, Supp. Service Reg. 70]

## RENTAL OF DUMP TRUCKS ON CONSTRUCTION, ROAD MAINTENANCE AND HOUSING IN TERRITORIES AND POSSESSIONS OF UNITED STATES

A statement of the considerations involved in the issuance of this Supple-

mentary Service Regulation No. 70, issued simultaneously herewith, has been filed with the Division of the Federal Register.

§ 1499.711 *Rental of dump trucks on construction, road maintenance, and housing projects in the territories and possessions of the United States—(a) Applicability of this regulation.* This regulation applies to all rentals of dump truck and combination truck and trailer mounted equipment for use on or in connection with construction, road maintenance, or housing projects (hereinafter referred to as "construction") in any of the territories and possessions of the United States.

(b) *Relation of this regulation to other regulations.* This regulation replaces section 16 of Maximum Price Regulation 134, the provisions of which are substantially contained herein. It also replaces the pricing provisions and modifies other provisions of Revised Maximum Price Regulation 165. All other provisions of RMPR 165 not inconsistent with the provisions of this supplementary service regulation remain in effect. All orders previously issued by a Territorial Director or the Regional Administrator for the Ninth Region under Maximum Price Regulation 134 and the maximum rental rates authorized therein, remain in full force and effect under this regulation.

(c) *Maximum rates for dump truck rentals—(1) "Fully maintained and operated" basis.* The maximum hourly rates for the rental of dump trucks on a "fully maintained and operated" basis, less driver, for use on construction work (including other uses to which such trucks may be assigned in the course of rentals which are primarily for construction or road maintenance work) are set forth in Schedule I.

(2) *"Bare" basis.* The maximum rates for the rental of dump trucks on a "bare" basis for use on construction projects (including other uses to which such trucks may be assigned in the course of rentals which are primarily for construction or road maintenance work) are set forth in Schedule II.

(3) *Combination charges prohibited.* In no event may any charge for a particular rental of a dump truck be based on a combination of Schedule I and Schedule II rates.

(d) *Less than maximum rates.* Nothing in this regulation prevents the charging or offering, or paying of rates lower than the maximum rates permitted in Schedules I and II.

(e) *Modification of rates.* The Office of Price Administration, through its Director in the territory or possession, may at any time by order authorize maximum rental rates for dump trucks other than those provided herein, applicable to any group of lessors, or all lessors, for (1) a designated geographical area, or (2) a specified type of work where it is demonstrated that due to conditions peculiar to the area or project, that the rates herein established are either higher or lower than would be generally fair and equitable to either lessee or lessor.

(f) *Truck and trailer mounted equipment.* (1) The maximum rental rate for any combination machine consisting of any construction or road maintenance equipment mounted on an automotive truck or trailer and rented on a bare basis shall be a price calculated on the basis of a monthly rate which shall be equal to the sum of the following: (i) the maximum monthly rate for such equipment in accordance with section 15, Appendix A of Maximum Price Regulation 134, or under Maximum Price Regulation 136, where applicable, and (ii) a maximum monthly rental rate for the truck or trailer equal, for trucks to 7 percent and for trailers to 5½ percent, of the highest maximum price established by any regulation issued by the Office of Price Administration for the sale to any domestic class of purchaser, of the nearest equivalent new truck or trailer, or the nearest equivalent new truck or trailer chassis and the nearest equivalent new extra, special, or optional equipment which may have been added to complete the rented truck or trailer.

(2) Maximum charges for operating and maintenance services supplied by lessors in connection with rental of truck or trailer mounted equipment, whether amounting to a fully, or partially, operated service shall be charges established by filing an application for approval of such rate pursuant to section 5 of Revised Maximum Price Regulation 165.

## PART II

(1) Where a driver is provided by the lessor in connection with a fully maintained rental of a dump truck, there may be added to the above hourly rate, 135% of the hourly wage for the operator of such truck at the wage

prevailing on March 31, 1942, in the area of the job site.

(2) The capacity of any dump truck shall be the water level capacity as determined by the height of the tail gate or front end, whichever is lower, of the permanent body of the truck: *Provided*, That when necessary to attain such water-level the sides of the truck are brought up to this height, whether by temporary or permanent additions. It shall be a violation of this regulation for any lessor to refuse to supply sideboards, or any type of work where he has customarily supplied the same, in order to obtain greater aggregate rental for his trucks. The capacity of the Boulder type dump truck shall be determined by the manufacturer's rating.

(3) Column A rates apply where the loading is performed by power loading devices except where the material is processed sand, gravel, crushed stone, or other processed materials in stock piles at a commercial producing plant, at point of construction or at intermediate point of transfer. A hopper, chute, bunker, or conveyor shall not be deemed to be a power loading device.

Column B rates apply where the loading is performed by hand and where the average mileage of the vehicle does not exceed 8 miles per hour for the period of time the vehicle is in use each day.

Column C rates apply where transportation or loading is performed under conditions other than those described for application of Column A or B rates. Column C rates apply where the loading is by hopper, chute, bunker, or conveyor.

(4) On any job where the lessee finds it impossible or impracticable, because of the shifting of trucks from one type of loading to another, to calculate the rental according to the several services rendered by each truck, the lessee may pay, as a maximum rental price for the job, a price calculated on the basis of any rate, or combination of rates, which does not exceed the applicable rates set forth in Column A above.

(5) Irrespective of the basis of contract, in no event shall any rental paid or received for dump trucks exceed the maximum rental permitted by application of the foregoing hourly rates.

(6) In every instance, the foregoing maximum hourly rates shall apply irrespective of the length of time that a truck is on the job, except that where the lessor is required to pay his truck operator overtime wages on any job because of overtime operation of the truck, there may be added to the maximum rental the dollar amount, determined according to wage rates in effect on March 31, 1942, of so much of the excess of overtime wages over straight time wages as is actually paid the operator plus payroll taxes and insurance for such overtime operation of the truck.

(7) In every instance, rental for any dump truck rented on a fully operated basis shall be calculated, in accordance with this paragraph, as beginning not sooner than the time the truck arrives on the job ready for use and as ending when the truck is finally released on the job for return to the lessor, except that where the truck must be moved, daily to and from the job, the lessor may charge the lessee an additional hour's rent at the applicable maximum rate for each day that the truck is moved to and from the job.

(8) The Office of Price Administration, through its Director in the territory or possession, may authorize for a particular job, an increase in the rental provided by the foregoing hourly rates, not exceeding 10 percent of the applicable maximum, where the lessor, prior to charging the higher rental, has satisfactorily shown that his equipment is to be used on such job more than 25 miles from his yard and that his costs will be materially increased by reason of such use.

#### PART III—APPLICATION OF RATES

(a) All repairs and replacements, including tire replacements shall be made by and

at the cost and expense of the lessor. Payment will not be made for use of equipment during the time when repairs are being made.

(b) These rates may be applied only to the hours of actual use, but do not contemplate lessee unreasonably retaining equipment in his possession when not in actual use.

#### FULLY MAINTAINED AND OPERATED BASIS RENTAL

(c) All fuel and lubricants used in the operation of motor vehicles shall be furnished (or paid for) by the lessor.

(d) Drivers' wages are excluded from all rates indicated hereon.

#### PART IV—DEFINITION AND GENERAL PROVISIONS

Fully maintained and operated basis refers to any lease, contract, or understanding, regardless of whether the same is denominated a rental agreement, or forms a part of another agreement, whereby one party undertakes to furnish another party with any of this equipment, and supply all services required there-with except drivers.

Rental rates set forth in this table are for fully maintained and operated vehicles (less drivers), and includes charges for mechanics, greasers, gasoline, fuel oil, lubricants, repairs, tire maintenance or any other charge which is properly a part of "maintenance and operating service." The rental rates set forth in this table include an allowance for the cost of all repairs and overhauling.

#### SCHEDULE II—RENTALS OF DUMP TRUCKS ON A "BARE" BASIS

##### PART I

Maximum price of truck, chassis, and equipment	A	B	C
	Per-cent	Per-cent	Per-cent
Up to and including \$4,500....	9	7	8
Over \$4,500 to \$8,500.....	8	6½	7
Over \$8,500.....	7	5½	6½
Half-track dump trucks.....	9	8	7

##### PART II

Determination of truck capacities and application of the foregoing rates shall be governed by the provisions of subparagraphs (2), (3) and (4) of Schedule I, Part II.

In every instance, rental for dump trucks leased on a bare basis shall be calculated as beginning at the time trucks are delivered into possession of the lessee, and as terminating at the time when trucks are delivered back into the possession of the lessor.

#### PART III—APPLICATION OF RATES

(a) The monthly rates established herein are based upon a usage of 240 hours per month. For actual use for more than 240 hours during one monthly period, the maximum additional rental price for each additional hour, or part of an hour, for such actual use shall be calculated upon the basis of 1/480 of the applicable rate per month shown in the foregoing schedule.

(2) If used for a part of a monthly period, the maximum rental rate for such part of the monthly period shall be calculated upon the basis of the higher of: (1) 1/30 of the applicable monthly rate for each daily period, or part thereof, of possession or (2) 1/240 of the applicable monthly rate for each hour, or part thereof, of actual use.

(c) All fuel and lubricants used in the operation of motor vehicles shall be furnished (or paid for) by the lessee.

(d) Drivers' wages are excluded from all rates indicated herein.

#### PART IV—DEFINITION AND GENERAL PROVISIONS

"Bare" basis refers to any lease, contract, or understanding, regardless of whether the same is denominated a rental agreement, or

forms a part of another agreement, whereby one party undertakes to furnish another party with any of this equipment, without supplying any operating and maintenance services required therewith.

Rental rates set forth in this table are for "bare" dump trucks and do not include charges for drivers, mechanics, greasers, gasoline, fuel oil, lubricants, repairs, or maintenance (except that due to normal wear and tear), or any other charge which is properly a part of operating and maintenance service. The rental rates set forth in this table include an allowance for the cost of all repairs and overhauling required as a result of normal wear and tear of vehicles. This means that:

(a) When vehicles are on bare rental and break down as a result of normal wear and tear, lessor cannot charge lessee with the cost of repairs, or any rental for the time lost while repairs are being made.

(b) Where vehicles are bare rental breakdown as a result of any cause other than normal wear and tear, lessor can charge lessee with the cost of repairs and with rental for possession of vehicles during the time while repairs are being made.

(c) However, where vehicles are on bare rental, the lessee may at his own expense always make minor repairs, regardless of the cause of breakdown, where such repairs are necessary to keep the job going, but he may not charge the cost of such repairs to the lessor or deduct the time lost for making repairs from the rental period, without the lessor's consent.

(d) In any instance where there is a breakdown of vehicles on bare rental, the cause of such breakdown is a question of fact that must be determined between the lessor and the lessee.

(e) A bare rental contract may provide for the assumption by the lessee of the duty to make all repairs and replacements at his own cost and expense, including those resulting from normal wear and tear and including tire repair or replacement, provided that in such event the rental shall not exceed 85% of the applicable maximum rental rate set forth in this table. By way of illustration but not limitation, such a lessee may be required to pay the entire cost of a repair or replacement necessitated by climatic conditions, fire, flood, tornado, etc., while the vehicle is or was in his possession, and the normal wear and tear resulting from his use and may be required to pay rental during the repair period. He may be required to pay a proportion of the cost of tires; for example, based upon his mileage use as compared with the normal mileage life of the tires. However, he shall not be required to pay for repair or replacement due to pre-existing or hidden defects, or to defective material, nor would he be required to pay rental during the repair period.

This Supplementary Service Regulation shall become effective as of the 14th day of May 1946.

Issued this 6th day of June 1946.

## Chapter XVIII—Office of Economic Stabilization

[Directive 115]

### PART 4003—SUPPORT PRICES: SUBSIDIES

#### PAYMENT OF INCREASED TRANSPORTATION COSTS IN CONNECTION WITH THE MOVEMENT OF SUGAR BEETS BECAUSE OF CLOSED PROCESSING PLANTS; 1946 SUGAR BEET TRANSPORTATION PROGRAM

The Secretary of Agriculture has, by letter and enclosures, dated May 22, 1946, submitted certain information and recommended a proposed 1946 Sugar Beet Transportation Program. Due to the small volume of sugar beets which it is anticipated will be produced in some areas in 1946, certain beet processing plants will not operate. Under the proposed program, Commodity Credit Corporation will pay the increased transportation costs of sugar beets produced by growers served by the closed processing plants in shipping sugar beets to the nearest operating processing plant. The program is estimated to result in an expenditure of approximately \$300,000. On the basis of the Secretary's statements, I find that the proposed program is necessary to effectuate the Stabilization Program.

Accordingly, pursuant to the authority vested in me by the Stabilization Act of 1942, as amended, and by Executive Order 9250 of October 3, 1942 (7 F.R. 7871), Executive Order 9328 of April 8, 1943 (8 F.R. 4631), Executive Order 9593 of August 18, 1945 (10 F.R. 10155), Executive Order 9651 of August 30, 1945 (10 F.R. 13487), Executive Order 9697 of February 14, 1946 (11 F.R. 1691) and Executive Order 9693 of February 21, 1946 (11 F.R. 1929) *It is hereby ordered:*

1. The Department of Agriculture is authorized and directed to carry out, through the Commodity Credit Corporation, the program described in the Secretary of Agriculture's letter and the memorandum enclosed therewith.

Issued and effective this 3d day of June 1946.

After careful consideration, I find that the program recommended by the Secretary is necessary to effectuate the stabilization program.

Accordingly, pursuant to the authority vested in me by the Stabilization Act of 1942, as amended, and by Executive Order 9250 of October 3, 1942 (7 F.R. 7871), Executive Order 9328 of April 8, 1943 (8 F.R. 4631), Executive Order 9593 of August 18, 1945 (10 F.R. 10155), Executive Order 9651 of October 30, 1945 (10 F.R. 13487), Executive Order 9697 of February 14, 1946 (11 F.R. 1691) and Executive Order 9693 of February 21, 1946 (11 F.R. 1929), *It is hereby ordered:*

The Secretary of Agriculture is authorized and directed to formulate and carry out a program to support the price of flaxseed of the 1946 crop by subsidy payments and loans and purchases in accordance with his letter of May 24, 1946, and the memoranda attached thereto.

[Docket No. G-733]

CARNEGIE NATURAL GAS CO.

NOTICE OF APPLICATION

JUNE 4, 1946.

Notice is hereby given that on May 28, 1946, Carnegie Natural Gas Company ("Applicant"), filed an application pursuant to section 7 (b) of the Natural Gas Act for permission and approval to abandon as part of its utility system, its Hastings Compressor Station located in Grant District, Wetzel County, West Virginia, consisting of buildings and land (approximately fifty-seven acres), and compressor equipment as follows:

One 500 horsepower Nordberg steam driven gas compressor.

Low pressure power cylinder 55" x 60"

High pressure power cylinder 26" x 60"

Direct connected to two (2)—26" x 63" gas compressors.

Three (3) Erie City 200 h.p. boilers.

Appurtenant equipment consisting of:

Gas scrubber, air compressor.

Water pumps and tanks.

Miscellaneous station piping and structures.

Applicant is a Pennsylvania corporation, with its principal place of business at 1015 Frick Building, Pittsburgh 19, Pennsylvania, and authorized to do business in West Virginia. On August 3, 1943, Docket No. G-263, the Federal Power Commission issued to Applicant a "grandfather" certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, as amended, authorizing the continued operation of its business, operations and properties, of which this compressor station is a part. It is stated in the application that Applicant erected the station for the purpose of withdrawing natural gas from a group of wells located adjacent to the station, but that as a result of depleted well volume it is now feasible and economical for Applicant's Hundred Station located approximately thirteen (13) miles northeast thereof to pump all the gas handled by Hastings Station, and therefore the operation and maintenance of Hastings Station is no longer necessary. Applicant further states that no service now being rendered by it will be affected by the abandonment of the station.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Part 67 of the provisional rules of practice and regulations under the Natural Gas Act and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Applicant should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen (15) days from the date of this publication, a petition or protest in accordance with the Commission's provisional rules

of practice and regulations under the Natural Gas Act.

EASTERN AND CENTRAL WOODEN AGRICULTURAL CONTAINERS

ADJUSTMENT OF MAXIMUM PRICES

A petition has been filed with the Office of Price Administration requesting an increase in maximum prices for containers subject to Revised Maximum Price Regulation No. 320—Eastern and Central Wooden Agricultural Containers. A study of the industry's operations under the regulation is now in progress. It has been shown that authorization to use adjustable pricing pending a final analysis of and action with reference to the data presented is necessary to promote production and distribution of the commodities involved. This action is taken pending final action by this Office in order to remove any possible interference with the vitally important food program. The issuance of this order will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. Therefore, under the authority vested in the Price Administrator and pursuant to section 11 of Revised Maximum Price Regulation No. 320, *It is ordered:*

(a) Producers of containers subject to Revised Maximum Price Regulation 320 by agreement with purchasers other than wholesalers and dealers may sell and deliver such containers at prices to be adjusted in accordance with action to be taken by the Office of Price Administration after delivery.

(b) Pending final action to be taken by the Office of Price Administration with reference to the current analysis of the industry's operations, producers shall not make any collections on account of the containers delivered under such agreement which are in excess of the presently existing maximum prices in Revised Maximum Price Regulation No. 320.

(c) This order shall be automatically revoked by the action taken by the Office

of Price Administration with reference to the current analysis of the industry's operations.

This order shall become effective June 6, 1946.

**SECTION 1. What this order does.** This Order No. G-21 under General Order 68 covers all retail sales by any seller, located in the Boise, Idaho area, herein designated as Idaho Building Materials Area No. 1, of the specified building and construction materials listed in the tables annexed to and incorporated herein. The Boise, Idaho area, for the purposes of this order includes all of the City of Boise, and Ada County, Idaho.

**SEC. 2. Definitions.** For the purposes of this order:

(a) "Retail sale" means a sale to an ultimate user or to a purchaser for resale on an installed basis.

Except to the extent that they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation or other applicable regulation or order shall continue to apply to retail sales covered by this order.

**SEC. 4. Authorized maximum prices.** Upon and after the effective date of this Order No. G-21, the maximum prices for the retail sales of the specified building and construction materials covered by this order shall be the prices listed in the tables annexed to and incorporated herein.

**SEC. 5. Delivery practices.** (a) Sales under this order may be made as yard sales or delivered sales. If the buyer requests delivery within a free delivery zone which the seller recognized during March 1942, the seller shall not charge for making the delivery.

(c) If the seller was not in business during March 1942, he may elect to establish a free delivery zone or to make delivery charges, or both, and any such delivery charges shall not be in excess of such charges made by his principal competitors in his community for delivery during March 1942, and subject to the limitations of this section.

(d) All additional charges for delivery shall be itemized separately on any sales slips furnished the buyer and record thereof shall be kept as required by Section 8 of this order.

**SEC. 6. Discounts and allowances.** Each seller, subject to this order, must maintain his customary terms, discounts, and allowances on sales to each class of purchaser which he had in effect during March 1942.

**SEC. 8. Sales slips and records.** (a) Every seller covered by this order who

has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the seller and the purchaser, a description and the quantity of each item sold and the price received for it. If he customarily prepared his sales slips in more than one copy he must keep a duplicate copy of each sales slip delivered by him pursuant to this section. Such sales slips and records required to be kept by subsection (b) of this section shall be kept at the seller's principal place of business in the area and shall be made available for inspection by representatives of the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

**SEC. 10. Evasions.** (a) Any practice, scheme or device which results in a higher price to the purchaser of the specified commodities covered by this order than is permitted by this order shall be deemed to be a violation of this order and shall subject the seller to all the civil liabilities and the criminal penalties provided by the Emergency Price Control Act of 1942, as amended and extended.

(b) No seller shall as a part of the consideration or as a condition of a sale of the specified commodities covered by this order, secretly or otherwise receive either directly or indirectly, any side payment, commission, fee, consideration or other thing of value whatsoever nor shall the seller, either directly or indirectly acquire or receive in addition to the maximum prices established by this order the benefit of any services transportation agreements or other valuable thing, material or property.

(c) No seller shall eliminate or reduce in any form or manner any discount or allowance customarily offered in connection with the sale of the specified commodities covered by this order nor shall the seller lower the quality thereof below that called for by the specifications or agreement with respect to the sale of the specified commodities covered by this order nor shall the seller in any manner make a delivery charge in excess of the

amount provided in section 5 of the order.

(d) No seller shall by any of the foregoing plans, schemes or devices, or by any other plan, scheme or device receive or acquire or attempt to receive or acquire anything of value, service, valuable right, property or property right, money or other consideration whatsoever in addition to the maximum prices established in this order for the sale of the specified commodities covered by this order.

Sec. 11. *Less than maximum prices.* Prices lower than the maximum prices for sales covered by this order may, of course, be charged and paid.

BUILDING AND CONSTRUCTION MATERIALS IN  
POCATELLO, IDAHO, AREA

Order No. G-27 under General Order 68. Maximum prices for retail sales of certain building and construction materials in the Pocatello, Idaho, area, Docket No. 7-GO 68-27.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the provisions of General Order 68, it is hereby ordered:

**SECTION 1. What this order does.** This Order No. G-27 under General Order 68 covers all retail sales by any seller, located in the Pocatello, Idaho, area, herein designated as Idaho Building Materials

Area No. 2, of the specified building and construction materials listed in the tables annexed to and incorporated herein. The Pocatello, Idaho area for the purposes of this order includes all of the City of Pocatello, Idaho, all of Power County, Idaho, all of Bingham County, Idaho, lying south of an east-west line drawn five miles north of Blackfoot but not including the city of Aberdeen, and all of Bannock County, Idaho lying north of an east-west line drawn five miles south of the town of Inkom in said Bannock County.

**SEC. 2. Definitions.** For the purposes of this order:

(a) "Retail sale" means a sale to an ultimate user or to a purchaser for resale on an installed basis.

(b) "Delivered sale" means the sale of any quantity of the building and construction materials covered by this order, delivered to any point designated by the purchaser.

(c) "Yard sale" means the sale of any quantity of the building and construction materials covered by this order delivered to the purchaser at the seller's yard, store or warehouse.

(d) "Building and construction materials" means the masonry, gypsum and metal lath, insulation and wall board, roofing and siding, and metal products materials, as set forth in the annexed price tables incorporated in this order.

**SEC. 3. Relation to other regulations.** The maximum prices established by this Order No. G-27 supersede any maximum prices or pricing methods previously established by any other regulation or order covering the commodities listed in the tables annexed to and incorporated herein. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation or other applicable regulation or order shall continue to apply to retail sales covered by this order.

**SEC. 4. Authorized maximum prices.** Upon and after the effective date of this Order No. G-27, the maximum prices for the retail sales of the specified building and construction materials covered by this order shall be the prices listed in the tables annexed to and incorporated herein.

**SEC. 5. Delivery practices.** (a) Sales under this order may be made as yard sales or delivered sales. If the buyer requests delivery within a free delivery zone which the seller recognized during March 1942 the seller shall not charge for making the delivery.

(b) If the buyer requests delivery outside the free delivery zone which the seller recognized during March 1942 or if no free delivery zone was recognized by the seller in March 1942, the seller may make delivery charges not in excess of those made by him in March 1942 but if delivery is made by a common or contract carrier the seller shall not charge in excess of the actual freight paid.

(c) If the seller was not in business during March 1942, he may elect to establish a free delivery zone or to make delivery charges, or both, and any such

delivery charges shall not be in excess of such charges made by his principal competitors in his community for delivery during March 1942, and subject to the limitations of this section.

(d) All additional charges for delivery shall be itemized separately on any sales slips furnished the buyer and record thereof shall be kept as required by section 8 of this order.

**SEC. 6. Discounts and allowances.** Each seller, subject to this order, must maintain his customary terms, discounts, and allowances on sales to each class of purchaser which he had in effect during March 1942.

**SEC. 7. Availability of order.** Every seller making a sale covered by this order shall, if requested by the purchaser, make available to the purchaser for inspection a copy of this order. Copies for this purpose may be obtained from the office of the Regional Administrator or from the Boise District Office of the Office of Price Administration.

**SEC. 8. Sales slips and records.** (a) Every seller covered by this order who has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the seller and the purchaser, a description and the quantity of each item sold and the price received for it. If he customarily prepared his sales slips in more than one copy he must keep a duplicate copy of each sales slip delivered by him pursuant to this section. Such sales slips and records required to be kept by subsection (b) of this section shall be kept at the seller's principal place of business in the area and shall be made available for inspection by representatives of the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(b) Each seller making a sale of \$10.00 or more, regardless of previous custom, must keep and retain at his principal place of business in the area covered by this order, records concerning each such sale covered by this order showing at least the following:

1. Name and address of buyer.
2. Date of transaction.
3. Place of delivery.
4. Complete description and quantity of each item sold and the price charged.
5. Any additional charges for delivery.

**SEC. 9. Prohibitions against sales at higher than maximum prices.** On and after the effective date of this order, regardless of any contract or other obligation, no person shall sell or offer to sell building or construction materials covered by this order at prices higher than the maximum prices established by this order.

**SEC. 10. Evasions.** (a) Any practice, scheme or device which results in a higher price to the purchaser of the specified commodities covered by this order than is permitted by this order shall be deemed to be a violation of this order and shall subject the seller to all

the civil liabilities and the criminal penalties provided by the Emergency Price Control Act of 1942, as amended and extended.

(b) No seller shall as a part of the consideration or as a condition of a sale of the specified commodities covered by this order, secretly or otherwise receive, either directly or indirectly, any side payment, commission, fee, consideration or other thing of value whatsoever nor shall the seller, either directly or indirectly, acquire or receive in addition to the maximum prices established by this order the benefit of any services, transportation agreements or other valuable thing, material or property.

(c) No seller shall eliminate or reduce in any form or manner any discount or allowance customarily offered in connection with the sale of the specified commodities covered by this order nor shall the seller lower the quality thereof below that called for by the specifications or agreement with respect to the sale of the specified commodities covered by this order nor shall the seller in any manner make a delivery charge in excess of the amount provided in section 5 of the order.

(d) No seller shall by any of the foregoing plans, schemes or devices, or by any other plan, scheme or device receive or acquire or attempt to receive or acquire anything of value, service, valuable right, property or property right, money or other consideration whatsoever in addition to the maximum prices established in this order for the sale of the specified commodities covered by this order.

SEC. 11. *Less than maximum prices.* Prices lower than the maximum prices for sales covered by this order may, of course, be charged and paid.

SEC. 12. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 13. *Revocation or amendment.* This order may be revoked, modified or amended at any time by the Price Administrator or by the Regional Administrator.

This Order No. G-27 shall become effective June 3, 1946.

Issued this 21st day of May 1946.

2. That the property described as follows: a. Real property situated in the City of Manila, Commonwealth of the Philippines, therein registered and particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property, and

b. All other property of any nature whatsoever situated in the United States and owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Tokyo Seiko Kabushiki Kaisha, including but not limited to two Membership Fee Certificates in Wack Wack Golf and Country Club, Inc., a corporation organized under the laws of the Commonwealth of the Philippines, which Membership Fee Certificates are registered in the name of Tokyo Seiko Kabushiki Kaisha or Tokyo Seiko Kaisha, Ltd., and all rights evidenced by said Certificates,

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it

should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC-1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.
